23. Mr. Amit Agarwal

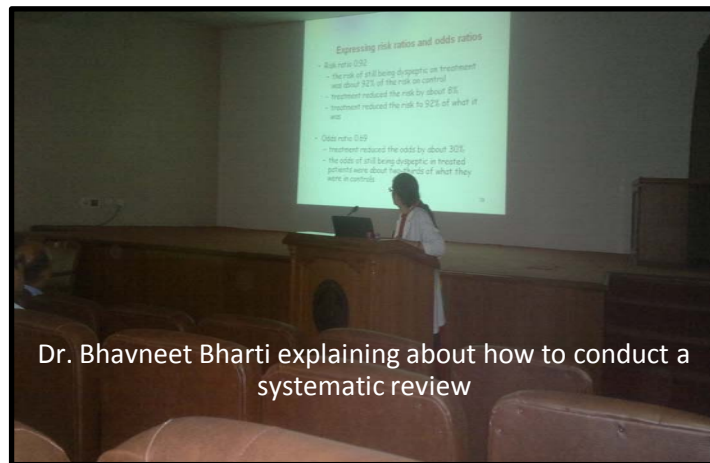

PROCEEDINGS

A brief introductory round for tutors and participants was held after registration for workshop. Dr. Somnath Mukhopadhyay, Chair of Paediatrics from Brighton & Sussex Medical School, U.K. shared valuable experiences about his involvement in the field of evidence based child health. After that, Dr. Bhavneet Bharti taught the participants about how to conduct systematic reviews. She explained about the basics of systematic reviews and their importance. Dr. Deepak Chawla discussed about framing PICO (Population, Intervention, Comparisons and Outcomes) and types of studies in his lecture. He emphasized about the need for a well-formulated question for reviews. Dr. Kana Ram Jat appraised the participants about quality assessment of studies for review. Dr. Nusrat Shafiq took lecture on data extraction from trials and also provided them with a sample sheet on which the participants practiced to extract the data from randomized controlled trial.

In the afternoon session, Dr. Nusrat Shafiq taught about data entry in Review Manager (REVMAN) software, the standard software for systematic reviews as prescribed in the Cochrane Library. Ms. Harpreet Kaur took the session for developing search strategy for reviews. Certificates were given at the end of the workshop.

Dr. Somnath Mukhopadhyay taking introductory session

Dr. Bhavneet Bharti explaining about how to conduct a systematic review

Dr. Deepak Chawla giving details about PICO

Dr. Nusrat Shafiq guiding about data extraction
